Staying hydrated just got easier with the Bottle Fill Station. This public-use water bottle refilling station is ideal for public parks, trailheads, and anywhere cyclists may roam. The water bottle cut-out on the front of the station gives a visual indication of how to use it. Bottoms up!

Product Specifications
- Designed to work with all types of water bottles and hydration bladders, thereby eliminating plastic bottle waste
- High security, innovative design is suitable for any public setting
- Vandal-proof auto shut off water valve prevents water waste
- Requires municipal water and sanitary drain or dry well hookup (check local codes)
- Smooth laminar flow water filler nozzle and integrated inlet water strainer
- System is compliant with ADA, EPA, and Public Law 111-380 (No Lead) requirements.
