

# PUBLIC TOOLBOX

Space doesn't have to be a limiting factor when it comes to making a DIY, public-use bicycle repair area. The Public Toolbox is a super tough, wall-mounted option for providing access to the most commonly used bicycle repair tools. When paired with a manual or Electric Pump, you've got a super space-efficient DIY bicycle repair area that cyclists will love!

## Product Details

- Nine bicycle specific tools, securely attached by stainless steel cable
- Wall mounted design; small footprint is perfect for small spaces
- Large space for custom branding on face plate (130 sq. in. / 838 sq. cm.), template provided by Bike Fixation
- Designed for indoor and outdoor use
- Strike plate to protect wall from tool strikes is available separately

### Specifications

Model #	Description	Type of Mount	Weight	Length	Width	Height	Space Requirement
26165	Public Toolbox	Wall Mount	29 lbs.	2.5"	11"	66"	See Back

Our Bike Fixation representatives can assist with custom layout and spacing to meet your room dimensions and desired bike capacity.

# Public Toolbox

## Recommended Spacing

The Public Toolbox is very versatile in where it can be installed. We recommend that it is placed in a location that allows a bicycle to access it either perpendicular or horizontal to the wall.

## Tools Included:

- Philips & standard screwdrivers
- Steel core tire levers (2)
- Headset/pedal wrench
- 8/10mm cone wrench
- 9/11mm cone wrench
- Torx T-25
- Hex key set
