

WAVE DELINEATOR

Protected bike lane, cycle track, Green Lane, low-stress bike lane- whatever your preferred nomenclature, cities in the U.S. have been implementing these on public streets at impressive rates. The Wave Delineator is ideal for temporary pop-up bike lanes when communities want to create a demonstration protected lane or direct bike traffic during day or week-long events.

WAVE DELINEATOR

Can a bike lane feel SAFE and FUN? If so, will it impact the success of a project and increase enjoyment?

In collaboration with Los Angeles DOT and Gensler Architects, Bike Fixation designed a temporary lane delineator that makes pop-up bike lanes fun and inspiring. Standard bollards, flex posts, and traffic cones make bike lanes feel like construction zones and unpleasant places to be.

The goal was to design a barrier that helps make demonstration projects and events more successful, thereby helping build community support for more permanent infrastructure.

Product Details

- Aesthetic: wave design with double cut-out
- Easy Deployment: no tools required
- Transportable: lightweight and collapsible
- Robust: thickness optimized for weight and deflection
- Safe: chamfered edges, reflective decals, ADA compliant, optimized height for drivers and cyclists
- Multiple mounting options: freestanding, temporary, and semi-permanent
